Stretching: a restorative class of dynamic and static stretching! This class is designed to increase flexibility, muscle control, and range of motion.

Tai Chi: the ultimate purpose of Tai Chi is to cultivate the "qi", or life energy within us, to flow smoothly and powerfully throughout the body. The essential principles include mind integrated with the body, control of movements and breathing, generating internal energy, mindfulness, song (loosening 松) and jing (serenity 静).

Top to Bottom Intervals: Total Body H.I.I.T is a series of total body movements utilizing multiple muscle groups simultaneously to strengthen and condition the body as a whole. While also increasing your body's mobility and ability to move as a whole from top to bottom.

Yoga: Gentle: focuses on posture and consists of hip opener poses that will help keep the spine straight and aligned. It may help those with tense upper, lower back, and tight hip problems. All levels welcome! Vinyasa: perfect for building strength and flexibility. We will focus on alignment through breathing. **Yin:** A deeply relaxing class for both mind and body. Provides a gentle, quiet, and meditative practice, all poses are done on the floor so that the muscles can relax and allow the deep connective tissues surrounding the hips, thighs, and lower back to be gently stretched. Poses are held for longer periods of time (generally 3-5 minutes) and awareness is brought to sensations in the body.

Zumba: we take the "work" out of workout, by mixing low and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin World rhythms take over, you'll see why Zumba® Fitness classes are often called exercise in disguise. Zumba Gold: perfect for those who are looking for a modified Zumba® class that recreates the original moves at a lower intensity. The design of the class introduces easy-to-follow Zumba®
